

Kaufman Children's Dental Hospital

Board Certified Specialists in Pediatric Dentistry

Your Child Deserves a Pediatric Dentist

Pediatric dentists are the pediatricians of dentistry. They limit their practice to treating infants, children, and adolescents. Board certified pediatric dentists are recognized as **Diplomates** of the **American Board Pediatric Dentistry**.

Good oral health is an important part of your child's total health. Establishing us as your child's **dental home** provides us with the opportunity to implement **preventive dental health**. Our team includes board certified specialists in pediatric dentistry, orthodontics, and anesthesia.

What is preventive dentistry?

Preventive dentistry begins as soon as the first teeth erupt into the mouth. When you visit the pediatric dentist you will learn how to clean, and protect your baby's teeth. Early first visits at the dentist improve the chance of preventing dental disease, and help your child build a cavity-free smile.

AMERICA'S PEDIATRIC DENTISTS

THE BIG AUTHORITY on little teeth

At the Children's Dental Hospital, we will discuss any poor oral habits, provide a professional tooth cleaning, and fluoride treatment; sealants will be applied when necessary, tooth alignment will be evaluated, and then closely monitored by our orthodontic team.

When should I take my child to the dentist the first time?

In order to prevent dental problems, your child should see a pediatric dentist when the first tooth appears, or no later than their first birthday. A check-up every six months is recommended for most children.

Do we treat children with special health needs?

We provide dental care for ALL children! Our fully accredited ambulatory surgery facility is designed for the treatment of children who do not tolerate dental procedures well, using sedation and general anesthesia. At **Kaufman Children's Dental Hospital** we believe every child should have the opportunity for the best dental care possible.

AMERICAN BOARD OF PEDIATRIC DENTISTRY
Only certifying board for the specialty of Pediatric Dentistry recognized by the American Dental Association

Diplomate, American Board of Pediatric Dentistry
